

Recently the athletic department began using a new scheduling program to help out with the multiple activities at school. Part of the service is a notification system that all parents, students, and staff will have access to at no cost to you. If for any reason an event (game or practice) is changed, you will be able to receive an email or text message describing these changes. This could be a very useful tool, especially when it comes to last minute weather related notifications. The only possible cost would be standard text message charges that your mobile provider may assess.

If you would like to sign-up for this service please follow the instructions listed below:

1. Log into highschoolsports.net
2. Click on to "My Account" at the top of the High School Sports homepage.
3. Click on the "Join Today" tab
